Sandberg Monitor Cable VGA LUX 1.8m BL.

Monitor cable for connecting a VGA monitor to a computer. This type of cable is double shielded, i.e. each lead is individually shielded as well as the cable as a whole being shielded. The cable is also equipped with ferrite cores. These features combine to ensure that the cable is insusceptible to noise and prevents image ghosting. The best choice of monitor cable. The cable is black so it matches a black monitor.
